

Concealed SKYscreen Trim Kit

- Technical Sheet 23

General Arrangement Drawing

Install Design Points

- Maximum depth of deck for system complete with Concealed SKYscreen is 172mm (6³/₄"") with long upper liner and 116mm (4¹/₂"") with short upper liner.
- Lower trim supplied with Concealed SKYscreen handle cut outs and trim height is set to minimum necessary to provide space for headlining panel. Max headlining thickness 18 mm (3/4").
- Optional upper and lower liner system
- Upper trim is Oceanair PVCliner with two optional standard heights (but can be trimmed to any height)
- For powered and manual Concealed
- Also usable as a hatch finishing ring (order without handle cut out) to suit all popular hatches.

Sizes

- Maximum aperture dimensions 800/800mm (31¹/₂" / 31¹/₂"")
- Standard upper trim height 68mm (2³/₄""), maximum height 119mm (4³/₄"")
- Radius options available are 42mm (1⁵/₈"") and 50mm (2")
- If using Upper Trim, Concealed SKYscreen dimension 'X' will be increased by 46 mm (1³/₄"") for upper trim alloy support frame
- Minimum 'X' dimension is 258 with 42mm (10¹/₄"") corner radius, and 280mm (11") with 50 mm corner radius.

How to Order

- Please complete Custom Order Form and match with Concealed. Must be ordered together
- Trims may be ordered as a set or as separate items - e.g., lower or upper frame only. Either trim may be used with corresponding wood trim parts.

Technical Specification

- Paint specification and colour - Polyester powder coated with pre-treatment. Colour White is RAL No 9016, and Beige RAL No 9001
- All tolerances and sizes are taken from the inside face. Trims manufactured to a tolerance of +/-1mm
- Upper trim PVC liner - White RAL No 9010
- Three choices of finish for lower liner: Beige, White and Mill (unpainted)
- Lower trim - aluminum alloy section joined to matching coloured acetal mouldings
- Lower trim wall thickness is 4.5mm (1/4")
