

Your templates have been returned with your SKYSHADOW to confirm sizing (unless agreed otherwise). Your Sales Order Reference number is stuck to the template and to the corresponding SKYSHADOW

Fitting

- Squeeze the handle and feed it through the plastic eyelet on the SKYSHADOW, ensuring that the cup is on the outside face, the inside face has the Oceanair label on it. (1)

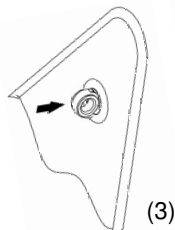

- Fit the plastic toggle in the handle (2)

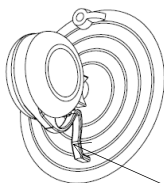

- Ensure the suction cup and the glass surface are free from dust and grease.

- Hold the SKYSHADOW blind in its desired location, with the suction cups resting on the glass, ensuring no tension is created between them.

- Apply pressure to the centre of the suction cup handle ensuring the quick release loop is pointing down. (3)

Quick release loop

Removal

- When removing the SKYSHADOW, take care to remove the suction cups and not to pull the fabric.
- When not in use, stow your SKYSHADOW blinds using the pre-creased folds, take care not to crease the fabric.

Maintenance & Cleaning

- If your SKYSHADOW gets wet, wipe the waterproof fabric dry with a clean cloth, or leave to dry naturally.

To Clean

- Wipe the fabric and the face of the suction cups with a clean, damp cloth.
- Always stow the SKYSHADOW in a dry condition.
- Replacement cups are available to order
